

19 March 2024

To Whom it May Concern,

Since my coming here to Western seven months ago, I've learned many things. I've learned that there are so many hours that can be wasted on my phone, and I have learned there are so many hours to spend doing fun activities away from my phone.

As an active student, both in high school and now at UMW, I've learned how to manage my time between activities and the betterment of my own health. In this year alone, I have served as a student senator for ASUMW, the president of Catholic Campus Ministry, and participated in the Education Club. While participating in these on campus activities, I have kept my 4.0 GPA. Though it is not easy, it shows we can do hard things.

As student senator, I have and will continue to serve you, the student body, bringing your voice to our meetings. I will recognize your accomplishments and not back away from discussing hard topics. This is a commitment I am willing to make and put time into.

After being on campus for almost a year, I am confident in saying I know the ropes. I participate in floor activities when I can and I went to Intramural Volleyball whenever I was free. I can model what it is like to be a student here at Western, and I can share with the incoming freshman experiences and opportunities they can grab hold of and grow with. My goal on senate for the 2024-2025 school year is to keep the bulldog pride high. It can be hard going to a small school with a small population in a small town, but this year, we as a school community were able to boost morale and held many activities. I want to keep that high and create a complete community between the University students and the Dillon community.

Recently, Dillon Jaycees approached the student senate about partnering with them and helping them in different ways throughout the community. I would like to see that furthered in the upcoming years, to show the big importance of this small town to our community members.

Thank you for your time and your vote and Go Dawgs!

Elizabeth Fulbright
