**Student Technology Support**
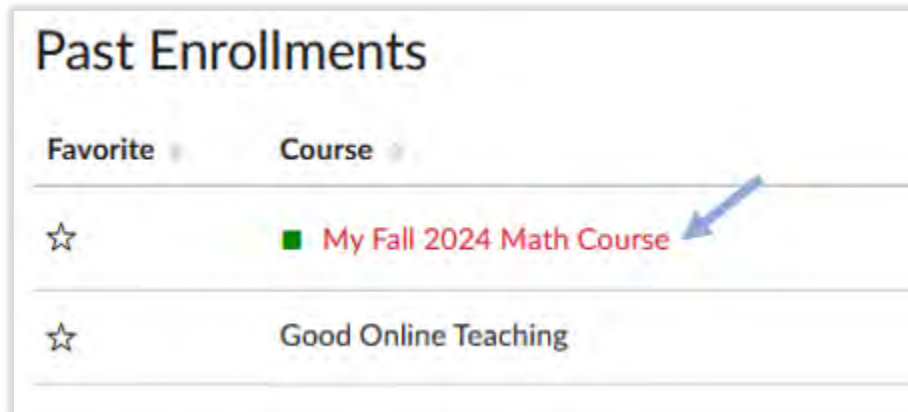

FINDING PAST COURSES IN CANVAS

In Canvas, courses are generally removed from your Canvas Dashboard one week after a semester ends. At that time, you will have "view only" access to the course and will not be able to submit work. If you need access to a previous Canvas course to finish an Incomplete grade, your instructor must contact eLearning.

Please note: Instructors control when and how Canvas course sites are available to students; therefore, you may not have access to a course at all once a semester or block ends.

To locate past courses, click on **Courses** in the Canvas Global Navigation Bar. Then click on the **All Courses** link.

Previous courses are listed under **Past Enrollments**. A red link indicates that you can open the course.

If you need assistance, please contact eLearning at elearning@umwestern.edu.
