

My name is Grant Kiechler and I am a freshman majoring in education and minoring in natural horsemanship. I was active in high school and played football for four years and Eureka was Conference Champions all four years. I played in two State Champion football games and we won the State in 2023. I won lineman of the year. I was active all four years in high school rodeo and represented the State of Nevada all four years in the Steer Wrestling Event. I was active in rodeo club, wrestling and football. I am certified life guard and taught private and public swimming lessons.

Through football, wrestling, and rodeo, I learned team work, personal responsibility, and school spirit. I had to feed, exercise horses and practice every day. I opened the pool five days a week at 5 a.m. I think that these qualities would be important for a ASUMW Student Senator.

I believe that a student should be involved in their school. I am really excited for the Wellness Center as it is hard with my schedule to get into the weight room. I would like to be a part of getting equipment purchased for Western Students. It will be exciting to have a useable Wellness Center on Campus.

I want to be involved in how student funds are spent and do my best to be a voice for students.
