"To Be A Better Horseman" Award
In Memory of
Chad Holland

Chad believed that being a good horseman was an important factor in the communication between the person and a horse. He believed in the importance of giving the horse a good experience the first-time you interacted with them, gaining their trust and confidence. It was all about making a better world for horse and man.

Chad was a contributing individual in bringing Ray Hunt horsemanship methods to this country. Ray Hunt held nine clinics at the Holland Ranch ranging from colt starting to horsemanship classes. All clinics were filled with participants.

Chad believed that whether you were in the rodeo arena, show world, breaking a colt or working cattle on the ranch horseback, you need to communicate with your horse and understand the feel the horse is giving you. As a horseman himself, he roped with the best, showed several AQHA Champions and spent countless hours horseback on the ranch.

Thank you Bank of Commerce for sponsoring
"To Be a Better Horseman" award.

Equine Studies Department

University of Montana Western

The UMW Equine Studies Department would like to welcome you to our 9th Annual Colt Sale. We appreciate you taking time to help support this wonderful program and its students. Each of these students has their own story to tell and a uniqueness in their horsemanship journey.

Colts arrive in late September and students begin halter breaking and starting these colts under saddle. Students who take this course commit to themselves and their colt for five days a week, three hours per day, for the next five months. They learn about starting a colt, health care, nutrition, and sales preparation. For some of these students, this may be their first colt that they have ever started. These colts will have around 80 rides and be exposed to outside elements, cattle, and have an introduction to roping.

Other aspects students learn about are teamwork and personal growth. One of the most rewarding things that happens to these students, that typical outsiders do not see, is the student's personal growth, not just in horsemanship, but themselves. We believe that we are getting young men and women prepared for the equine industry and most importantly, for life.

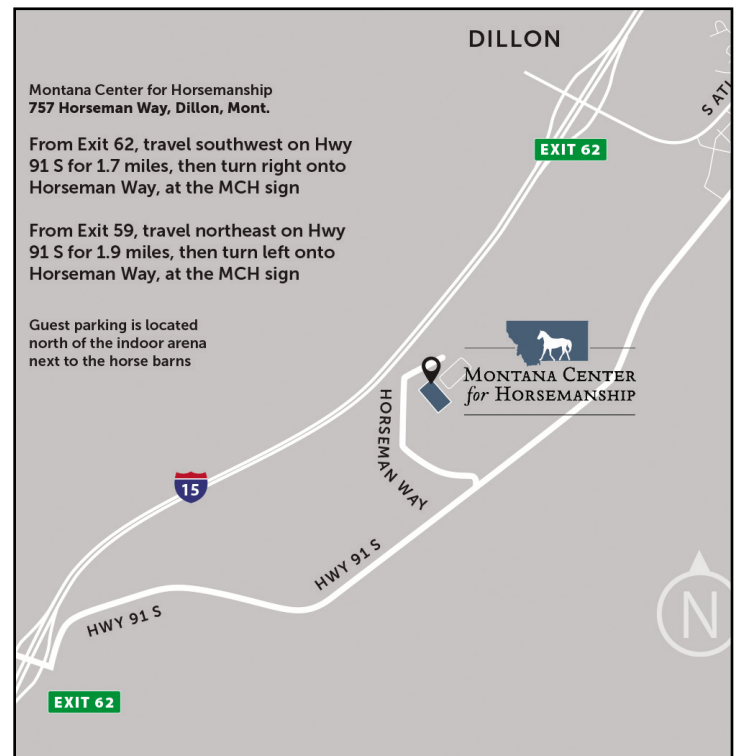

Thank you for our wonderful colt donors and sponsors for this educational opportunity for our students. These memories will forever be remembered by our students and instructors.

Thank You for Your Support,
UMW Equine Studies Department.
